Images, logos, and text in these 33″x 80″ standing banner templates are all changeable, and while the World Bank Group corporate colors comprise the primary visual, highlight colors may be added where needed (saved as swatches).

Option 3 (page 4) is designed for cobranded banners, and can support several partner logos. The size of the logos can be adjusted up or down, depending on the number used, and the vertical size of the logo area can be modified as well.
